1. Title

This Policy may be cited as Kyogle Council's Enforcement Policy.

2. Purpose

The purpose of this policy is to:

- Enable the Council to acknowledge its obligation under Section 8 of the Local Government Act 1993 to ensure that the regulatory powers are carried out in a consistent manner and without bias, and
- Provide a proactive policy statement regarding the enforcement of compliance with legislation and/or condition/s of development consent, and
- Foster prompt, consistent and effective action by the Council in response to allegations of unlawful activity whilst ensuring that the principles of natural justice are respected.

The Enforcement Policy reflects the need for the decision making process of the Council authorised officers to be carried out in a transparent, efficient, fair and consistent manner having regard to all the circumstances.

The inclusion of Appendices A and B at the rear of the policy can be interpreted as a guide to indicate the relative level of seriousness of some offences and therefore, from a consistency viewpoint, to determine whether or not the Council may issue a warning prior to some level of formal action.

3. Policy Objectives

The aim of this policy is to establish clear guidelines for the exercise of discretion in dealing with proactive regulatory action by the Council and customer service requests or complaints about unlawful activity. It provides workable guidelines on:

- (1) How to assess whether complaints of unlawful activity require investigation;
- (2) Options for dealing with unlawful activity;
- (3) How to decide whether enforcement action is warranted.

4. Validity

This policy derives its validity from Council resolution 111113/17.

5. Enforcement Principles

Kyogle Council is committed to:

- (1) Acting in the interest of protecting community health / safety and or the environment;
- (2) Acting consistently, fairly and impartially;
- (3) Preventing discrimination on the basis of race, religion, sex, national origin, political association or other personal reason/s;
- (4) Ensuring the proposed enforcement action is in keeping with the relative severity of the offence/s;
- (5) Ensuring enforcement action is taken against the right person for the correct offence;
- (6) Ensuring that any actual or potential conflict of interest situations are managed in a transparent, fair, consistent and impartial manner;
- (7) Disclosing all evidence relevant to the alleged offence/s;
- (8) Assisting the Court by providing all necessary information whether or not that information is in favour of the Council case;
- (9) Issuing cautions to the alleged offender/s, where necessary;
- (10) Making cost effective decisions concerning enforcement action having regard to the likely outcome at court;
- (11) Ensuring action is instigated within the specified time limits.

6. Application

This policy applies to the investigation and enforcement of complaints about unlawful activity or failure to comply with the terms or conditions of approvals, consents and orders.

While primarily directed at the regulation of development activity, the policy is also applicable to pollution control, regulation of parking, control over animals, unauthorised development including buildings, non-compliance with development consent conditions, food safety, public health and safety issues, tree/s removal and land clearing.

7. Responsibility

All the Council staff who deal with the proactive enforcement of relevant legislation in addition to written and verbal action requests or complaints alleging unlawful activity are responsible for implementing these policy guidelines.

All notifications of alleged unlawful activity should be appropriately recorded by the Council.

8. Definitions

“Unlawful activity” is any activity or work that has been or is being carried out:

- (1) Contrary to the terms or conditions of a development consent, approval, permission or other written authorisation from the Council;
- (2) Contrary to an environmental planning instrument that regulates the activities or work that can be carried out on particular land;
- (3) Contrary to a legislative provision regulating a particular activity or work;
- (4) Without a required development consent, approval, permission or the like;
- (5) Contrary to Australian or New South Wales legislation for which the Council is the Appropriate Regulatory Authority (ARA).

9. Investigating Unlawful Activities

All complaints and matters regarding unlawful activities will be reviewed to determine whether the matter requires enquiry or investigation. Further enquiries/investigation will not be initiated where:

- (1) The matter has already been investigated and resolved, or
- (2) The Council has no jurisdiction (for example, NSW WorkCover issues on building sites or amusement devices or an internal matter within strata buildings or where another Government Department is the Appropriate Regulatory Authority etc), or
- (3) The activity is determined to be lawful without an investigation.

In considering whether a complaint will warrant enquiry or investigation the Council will consider a range of factors.

These include:

- (1) Is the matter within the jurisdiction of the Council?
- (2) Is the complaint premature e.g. does it relate to some unfinished aspect of work that is still in progress?
- (3) Is the activity or work permissible with or without consent?

- (4) If the activity is permissible with consent, is there a consent in place?
- (5) Is it possible to determine from the information available to the Council whether the activity or work is permissible without consent and/or whether all conditions of consent are being complied with?
- (6) Is the complaint trivial, frivolous or vexatious?
- (7) Has too much time elapsed since the events the subject of the complaint took place?
- (8) Is there another body that is a more appropriate agency to investigate and deal with the matter?
- (9) Is the activity having a significant detrimental effect on the environment, or does it constitute a risk to public safety?
- (10) Does the complaint indicate the existence of a systemic problem e.g. if the complaint is one of a series, could there be a pattern of conduct or a more widespread problem?
- (11) Is there a history of related complaints against this person or organisation?
- (12) Does the complaint have special significance in terms of the priorities of the Council?
- (13) Are there significant resource implications in relation to an investigation and any subsequent enforcement action?
- (14) Is it in the public interest to investigate the complaint?
- (15) The effective use of resources having regard to the circumstances of the case.

If a decision is made not to investigate a complaint, this decision must be recorded with the reasons for that decision and the complainant so advised.

10. Responding To Complaints

Every effort will be made to ensure that all Customer Service Requests or complaints about alleged unlawful activity are actioned within the 'service standard' time allowed for resolving the category of complaint as indicated in the Customer Service Request system.

Action will be instigated within the following time frames:

- (1) Urgent and life threatening matters should be actioned as soon as possible following receipt of the complaint. Examples include unsafe building works, dangerous awnings, collapsed building/wall, serious pollution, food safety issues and public health and safety matters, etc. As a guide these matters should be dealt with on the day of the receipt of a complaint.
- (2) General compliance matters will be dealt with on a priority basis having regard to the relative seriousness of the matter. These examples include works not in accordance with consent or construction without consent, illegal use, noise and food complaints.
- (3) Nuisance matters should be actioned within fifteen working days; examples include domestic noise matters, minor non-compliance such as overgrown land or other matters in which there are no likely immediate health or safety implications

Note that response times may vary depending on staff and other resources. However the Council will acknowledge the complaint and keep the complainant informed in accordance with the service standards of the Council.

Confidentiality Of Complainants

The Council will respect the privacy and confidentiality of information received. However, due to its statutory obligations and other requirements, confidentiality cannot always be guaranteed. In cases where the release of information is considered to be necessary, the person who made the complaint will be consulted before such a decision is made. The complainant's identity may be disclosed where:

- the person consents in writing to the disclosure of that information; or
- the principles of natural justice dictate that information be disclosed to the person who is the subject of the complaint, which may enable the complainant to be identified; or
- the Council is of the opinion that disclosure of the identifying information is necessary to investigate the matter effectively.

11. Options For Dealing With Confirmed Cases Of Unlawful Activities

The Council will try to use the quickest and most informal option to deal with unlawful activity wherever possible unless there is little likelihood of compliance with such options.

Approaches to be considered will include:

- (1) Referring the complaint to an external agency for further investigation or prosecution.
- (2) Taking no action on the basis of a lack of evidence or for some other appropriate reason.
- (3) Counselling the subject of the investigation to educate them on the relevant Council requirements.
- (4) Negotiating with the subject of the investigation and obtaining some undertakings to address the issues of concern arising from the investigation e.g. an application for modification of development consent.
- (5) Referring the parties for mediation with the Community Justice Centre or alternatively for private mediation.
- (6) Issuing a letter requiring work to be done or activity to cease in lieu of more formal action.
- (7) Issuing a notice of intention to serve an order or notice under relevant legislation, followed by service of an appropriate order or notice pursuant to the provisions of the relevant legislation (ie, Local Government Act; Environmental Planning & Assessment Act; Protection of the Environment Operations Act).
- (8) Issuing a notice requiring work to be done under various legislation.
- (9) Starting proceedings in the Land & Environment Court for an order to remedy or restrain a breach of the relevant Act or Regulation.
- (10) Seeking injunctions from the Land & Environment Court or the Supreme Court.
- (11) Issuing a Court Attendance Notice in the local court.
- (12) Issuing a penalty infringement notice.
- (13) Taking proceedings for an offence against the relevant Act or Regulation
- (14) Carrying out the works specified in an order under the LG Act at the cost of the person served with the order .

All enforcement action will be monitored and a decision made in relation to noncompliance within 2 weeks of any deadline imposed.

12. Taking Enforcement Action

From an operational perspective the Council has a range of enforcement options including, but not limited to the following:

- (1) The issuing of a verbal warning;
- (2) The issuing of a written warning;
- (3) The issuing of a “show cause” letter;
- (4) The service of a Notice of Intention to issue an Order;
- (5) The service of written or oral Notices/ Orders/ Directions;
- (6) The issuing of a penalty infringement notice/s;
- (7) The recommendation to instigate legal action;
- (8) The waiving of certain fees and the granting of an extension of time for compliance;
- (9) The revocation of an approval;
- (10) The removal/ impounding of goods or items;
- (11) The refusal of an application.

When deciding whether to take enforcement action, the Council will consider the circumstances of the case. These include:

- (1) Has the Council created an estoppel* situation? * A bar preventing one from making an allegation or a denial that contradicts what one has previously stated as the truth.
- (2) Is the breach a technical breach only?
- (3) When was the unlawful activity carried out and for how long?
- (4) How has the unlawful activity affected the natural or built environment and the health, safety and amenity of the area?
- (5) Would consent have been given if it had been sought?
- (6) Can the breach be easily remedied?
- (7) Does the person in breach show contrition?
- (8) Are there any particular circumstances of hardship affecting the complainant or the person the subject of the complaint?
- (9) Has the person the subject of the complaint received a previous warning or other non-coercive approach or has formal legal action been taken?
- (10) Would an educative approach be more appropriate than a coercive approach?

- (11) What are the costs and benefits of taking formal enforcement action as opposed to taking informal or no action?
- (12) Is there sufficient evidence to establish a prima facie case? Is there some doubt over the evidence or offence/s?
- (13) Has Council staff acted appropriately in investigating the matter and were standard procedures followed including officers having appropriate authorisation and delegation?
- (14) What are the chances of success if the proposed enforcement action was challenged in court?
- (15) Is there a draft planning instrument on exhibition that would make the unauthorised use legal?
- (16) What action would be reasonable and proportionate in this case?
- (17) Is it in the public interest including there being a reasonable prospect of success?
- (18) Has the alleged offender been given an opportunity, if appropriate, to provide information as to why enforcement action should not be instituted?
- (19) Has the alleged offender been advised, if appropriate, that no response to a show cause letter will result in the commencement of enforcement action?
- (20) What is the likely length and net expense of the legal action.

The Council will ensure that the principles of natural justice are adhered to prior to a decision being made. The following principles will be addressed and implemented by the Council:

- Whoever is the subject of concern must know all the allegations in relation to their action;
- All parties to the complaint must have the right to be heard;
- All relevant submissions and evidence must be considered;
- Matters which are not relevant must not be taken into account;
- The person who makes the complaint must not determine the matter;
- The decision-maker must be fair and just.

13. Delegations for Enforcement Action

Council staff delegated to initiate various levels of enforcement action is set out in the Council Delegation Manual. The legislation applicable to the delegations is as follows:

- (1) The Australian Road Rules
