## **ITEM 5 QUESTION TIME**

Debbie Johnston, of Old Bonalbo: In relation to Crown common land in Woodworths Street Bonalbo, opposite the caravan park. Around October 2015 I phoned the Council to speak about the use of this parcel of crown land and I spent some time discussing the possibilities of what could happen with this land with a staff member. At that time the staff member was busy with issues to do with the amalgamations and he assured me that he would respond to me with information by email. I have not received any response and feel it is wrong that I should have to call him back to request he keep to this arrangement. My concerns are around accommodation for backpackers who will be working at the blueberry farm this year. That land could provide a great camping ground to be utilised, perhaps as an extension of the existing caravan park on the opposite side of the road. Also, the condition it is currently in is a serious vermin hazard for this area and a huge eyesore for anyone who comes into the village. I would like to receive an email response to my questions please and comments from the staff member involved and councillors if that is possible.

Councillor Danielle Mulholland: I will speak briefly to the matter. We have plans in the works to address that parcel of land, however I will hand over the Executive Manager Planning and Environment for a more detailed response.

Executive Manager Planning and Environment: I can't recall that particular request, but I apologise if I have not been able to get back to Mrs Johnston. I am not responsible for looking after the Crown lands in the area, but I will make sure I get a group response from Council coordinated and forwarded to you.

Councillor Lindsay Passfield: I haven't discussed with Mrs Johnston the initiative that I have been discussing with the General Manager and the Mayor. I also recognise the potential of the land Mrs Johnston referred to for developing for backpacker accommodation to help stimulate the economy of Bonalbo. The first step in that is to ascertain whether or not that activity is permissible on this crown land and if so if a licence can be obtained to do that. Once that's done, we would need to have a look at how it would be funded in terms of basic ablution facilities and basic camping amenities such as fireplaces, shelters and the like. It is very early days in this investigation -- I think it was only a week ago that I brought this to the attention of the General Manager and I know he has taken the issue up, but it is very new to us as a consideration.

General Manager: I did contact the Department of Lands and the next stage will be an onsite meeting at Bonalbo. With the onsite meeting we hope to determine whether there is an opportunity to come back to Council with a report and recommendation on how this might be able to be moved forward.

This matter was only raised last week and at this stage we are in the process of asking different people to attend that meeting and as soon as that meeting is arranged I will be able to come back to Council with the outcomes.

Debbie Johnston: Regarding the Omega Music Festival being held at 125 Joes Box Road Yabbra on the weekend of the 11-13 June. On 20 April I emailed Council with concerns about this festival that had been discussed with some neighbours near the property. They had received a letter from the festival organisers stating that Council had been notified of this event.

They estimate in their letter that around 300-400 cars will travel to the event along the country rounds and over the bridges. I checked the event listing for this group that they have on Facebook and it shows that more than 5000 people are attending. I do not know how 5000 people can fit into 400 cars. I ask the Council for feedback to share with the concerned neighbourhood. Again, I have not received any feedback, apart from the automatic response acknowledging my email which was received about eight minutes after I sent my email. Can I please have an email response to my question and I would like to know if Council has been notified of this event.

Executive Manager Planning and Environment: I am not familiar with the email that was sent, but I will find out the story of where that is. The Council did receive a development application on 2 May -- that was last week. We are in the process now of formally notifying the general public and adjoining neighbours of the application -- in fact that was done today. People will have an opportunity to respond to that and Council will assess it accordingly. It's also gone out to a number of agencies as well for their comments.

Councillor Chris Simpson: To clarify, in response to the question, the report in relation to that DA process will come back to the next Council meeting?

Executive Manager Planning and Environment: I haven't gone through the registration of that DA, and I'm not sure whether it is within staff delegations. If it is within staff delegations, but Council wants to consider that, it is something that can be raised through the General Manager. Either way, I was going to discuss that with the General Manager. Council has only just received that DA and we have to assess it as per what the act says. In terms of its potential impact on the community, and if it's going to have any significant impact, and if what Mrs Johnston says is correct, then it is a matter that we will probably raise through the Council.

Councillor Lindsay Passfield: As a matter of course would the neighbours be advised of the DA?

Executive Manager Planning and Environment: Adjoining landowners would be advised of the DA and an advertisement will also go in the local paper giving the general public an opportunity to respond.

Councillor Chris Simpson: Given that the event is scheduled for the 11-13 of June, it's giving Council a very tight timeframe particularly if it does have to come back to Council.

Executive Manager Planning and Environment: As Councillors will appreciate, we don't organise the events and we don't control what people do in terms of their application processes. We have statutory requirements in terms of timeframes for public notification, and it maybe that additional information in relation to the DA is required as well. That's part of the assessment process and we will try to expedite it as best we can, but if an event organiser doesn't have an approval and they are required to have one, then they are in breach of the legislation and the Council can take a range of actions in respect to that -- it can issue orders, it can basically stop events, it can seek court orders beforehand. We are not quite at that stage yet. It has only just come in and we are assessing it and we hope to get a better idea of where it is at this week.

Councillor Ross Brown arrived at the meeting at 5.10pm.

Anne Reardon, of Kyogle: I was at a recent Chamber of Commerce meeting and the question was asked of Council's Tourism Economic Development Officer if he had a report to give to the meeting. The chairman eventually convinced the officer to address the meeting and all those at the meeting learned quite a lot about what he was doing in relation to mountain bike rallies and mountain bike tracks. Why doesn't the officer come to the Council meetings so that everyone can be informed of what is happening.

General Manager: If anyone needs to talk about these items at a council meeting then that would be me, not the Tourism Economic Development Officer. The reason that the officer should not have mentioned those items is because at the moment there is nothing that has been organised. We are looking at funding. It would serve no purpose for me to come to Council to discuss what's happening when, at this stage, nothing is happening. I will talk to the officer tomorrow to find out what information he presented to the meeting because as of now there is no event organised. We have signed a letter today applying for grant funding, but again nothing has occurred apart from that as of today.
