

Kyogle Council Water Services Customer Rebate Scheme Overview

Kyogle Council is pleased to be able to offer a **rebate of up to \$720 per residential property** for any water and sewerage customers who are interested in conserving our valuable water resources and being involved in planning for the future.

The following information is provided to assess your eligibility for the rebate scheme and outline the rebates available.

Kyogle Council are offering to all persons who are connected to both the town water supply and sewerage systems of Kyogle, Bonalbo or Woodenbong an opportunity to **SAVE MONEY** and **THE ENVIRONMENT** through water conservation measures on residential premises.

Conditions for eligibility for the rebate scheme payments are as follows;

1. The property must be within the Kyogle Local Government Area (LGA)
2. The property must be used for residential purposes only.
3. The property must be connected to both a town water supply system **and** town sewerage system. Three systems are included serving the villages Kyogle, Bonalbo, and Woodenbong.
4. The dwelling must have been constructed prior to July 1, 2005 which was the date of implementation of BASIX in the Kyogle LGA.
5. All plumbing and installations must be undertaken by a licensed plumber and in accordance with the NSW Code of Practice for Plumbing and Drainage.
6. An inspection will be undertaken by Council to ensure that the installation complies with the nominated rebate conditions and the NSW Code of Practice for Plumbing and Drainage.
7. Only the property owner or authorised agent can apply for any rebate.
8. The property owner must show proof of purchase and installation on or after July 1, 2006.

The following rebates are being offered by Council for eligible applicants;

Rebate Description	Tank Volume (litres)	Rebate	Claims Allowed per property
Rainwater Tank Level 1*	2,000 to 4,499	\$200	Only one amount from this group can be claimed per property
Rainwater Tank Level 2*	5,000 to 8,999	\$300	
Rainwater Tank Level 3*	9,000 and over	\$400	
Rainwater utilised for all toilet flushing *,**	Min 2,000	\$150	One
Rainwater utilised for washing machine *,**	Min 2,000	\$120	One
Dual Flush cistern to replace single flush ***	N/A	\$50	Two

* All plumbing must be conducted by a licensed plumber and in accordance with the NSW Code of Practice for Plumbing and Drainage

** Both these rebate options will require a first flush device on the rainwater tank and either a cross connection to the mains supply and suitable backflow prevention device, or a mains "top-up" valve and visible air gap.

*** The applicant will be asked to provide evidence that the new unit replaces a less efficient unit (a photo of the unit installed will be sufficient).
