

AUTHORISATION OF LOCAL ROAD AUTHORITY TO ALLOW GRAZING/WALKING OF STOCK ON PUBLIC ROADS

In order for Council to support an application to the North Coast Local Land Services for a permit to graze stock on Council controlled roads, the applicant must comply with and provide the following information to Council:

1. As Kyogle Council's Public Liability Cover does not extend to include liability incurred through roadside grazing, you as the stock owner must arrange for your own public liability insurance to be extended to cover this liability. This cover must be for at least \$20m and must include Kyogle Council as an "interested party". The applicant must submit a Certificate of Currency for their Public Liability Insurance prior to Council signing this Application Form.

The following conditions are to be included in permits issued by the Local Land Services in addition to the standard conditions imposed by Local Land Services.

2. All conditions under the *Rural Land Protection Act* and *Stock Diseases Act* must be complied with.
3. Stock is only permitted to graze during daylight hours.
4. Stock must be personally supervised at all times.
5. The supervisor/s must be wearing a high visibility vest, or equivalent at all times.
6. The owner of the stock shall be responsible for any damage caused to property, including roadside furniture and any personal injuries sustained by persons occasioned by the travelling or grazing of loose stock on the prescribed route along Council roads.
7. All consideration must be given to the travelling public, in that:
 - a. Prescribed standard stock warning signs must be erected by the permittee on the roadside, advising road users of the presence of stock on the roads and must be covered or removed when stock is yarded. Signs must be erected in accordance with the Regulations under the Rural Lands Protection Act. The signs must comply with RMS standards with respect to size, condition and appearance.
 - b. Signage must be erected at least 200m from the closest stock.
 - c. Signs must be erected in a location where they are clearly visible to all road users. Signs should not be placed just over a crest or obscured by vegetation or other signage.
 - d. Signs should preferably be attached with suitable brackets to the top half of Council's guide posts or a steel post.
 - e. Stock must be kept off the road pavement or shoulders except for the purposes of movement of stock from one side of the road to the other.
 - f. Stock should not be allowed to spread more than 1km along the road.

AUTHORISATION OF LOCAL ROAD AUTHORITY TO ALLOW GRAZING/WALKING OF STOCK ON PUBLIC ROADS

Authorisation of Local Road Authority to Allow Grazing/Walking Stock on Public Road

I being an authorised officer of Kyogle Council have sighted the stock owner's public liability insurance documents and confirm that the document indicates the applicant holds not less than \$20,000,000 Public Liability cover, Australia wide.

As such, I authorise NORTH COAST LOCAL LAND SERVICES to issue a Roadside Grazing Permit.
