

# SUPPORTING MASTER PLAN

## NORMAN JOHNSTON PARK

### EXISTING CONDITIONS

Drawing Details

Site name: Norman Johnston Park

Scale: 1:500 at A3

Date: 20 August 2020

Sheet: 1 of 2

NORTH

Upgrade the playground area. Provide shade sail over playspace and landscaping. Relocate existing steam roller to new visitor information sign.

Retain existing steam roller

Demolish existing shelter and provide a new basketball half-court (landform grading likely required)

Demolish former Girl Guides Hall and provide new sealed car parking area. Retain existing archway access.

Provide new entry statement to the reserve, including visitor signage and information point.

Boulevard-style tree planting along sealed roadway

Refurbish existing public amenities. Opportunity to place a locally-inspired mural on the exterior walls.

Retain existing picnic shelter and picnic facilities

Refurbish existing canteen

Car parking area

Laneway connection to Village centre along Post Office Lane (public art opportunity)

Reduce oval to 50-60 metre boundary. Fields to be used for multiple sports (i.e. cricket, soccer and athletics).

Install a new cricket pitch to the oval. Reinstate a new field fence (e.g. white picket sports fencing).

Plant native shade trees around perimeter of oval and provide spectator seating underneath.

Replace sports field lighting.

Outdoor fitness equipment station/s. Consider providing training circuit with stations provided at intervals along the new loop walkway.

Provide pedestrian solar-lighting along pathway around the oval, as well as intermittently planted shade trees

Investigate the reinstatement of an aerating fountain to the wetland for aesthetic and functional purposes

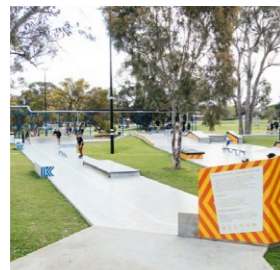

Informal pathway through Peacock Creek riparian corridor with points of interest highlighted

Create a formal park entry including a structure (such as an arbour). Investigate potential wedding opportunities and desirable attributes suitable for this location.

EXEMPLAR IMAGES:

Village entry pillars replicated as entry statements to the Reserve

Example of a dirt BMX / pump track (photo by Coolwaters Holiday Village)

White PVC picket sports field fencing (photo by Sunshine Coast Council)

Example of large shade trees lining the edge of an oval (photo by Visit Brisbane)

An arbor used as a backdrop for a wedding ceremony (photo by Stephanie Parsley)

Deck structure with shade provision overlooking water (photo by Landmark Products)

\*Multi-use fields are shown indicatively.

Future trails into Bonalbo Common Forest Loop Walk (tracks shown indicatively)

Provide new footpath to southern verge of Woodenbong Road within Reserve. The path may require culverts and/or a possible small footbridge to avoid the existing drainage channel.

Investigate a new pedestrian crossing along Woodenbong Road to safely connect residents to the reserve.

Investigate location for a waters edge wedding/deck structure

Provide new park entry statement to service the eastern end of the reserve

Provide footpath along verge to safely connect pedestrians from the caravan park to the park and beyond into town

Provide drop-off bay/car parking for use by swimming pool patrons

Upgrade pool entry with accessible entry statement

Formalise entry into caravan park. Consider upgrading the entry statement signage and landscaping.

Provide new privacy fencing/screening along boundary between pool and caravan park

Undertake weed control and management works along creek corridor including revegetation and restoration of embankments (where needed).

LEGEND

- Site extents
- > Proposed vehicular movements/access
- - - Existing pedestrian movements
- - - Proposed pedestrian movements
- ⬮ Provide distinctive entry statement using treatments that clearly mark this reserve
- ⬮ Proposed pedestrian entry statement / threshold
- Rainwater tank opportunities
