\$20M IN FUNDING for Clarence Way upgrade

Thirty-one kilometres of the Clarence Way between Bonalbo and Urbenville will be upgraded thanks to a \$16 million grant from the Australian Government through its Remote Roads Upgrade Program (RRUP).

Kyogle Council also will contribute \$4 million to the project.

Federal Member for Page Kevin Hogan announced the funding at Bonalbo last month.

"The Clarence Way is a critical route connecting the Bonalbo and Urbenville communities however the road is currently in exceptionally poor condition," Mr Hogan said.

"This upgrade will see significant safety improvements including pavement widening and strengthening as well as drainage and delineation improvements.

"Importantly, the upgrade will ensure locals, businesses and other road users get to their destination safer and sooner."

Mr Hogan said the RRUP help local government fund road upgrades which may

Member for Page Kevin Hogan was joined by Kyogle Council Mayor Cr Kylie Thomas, Deputy Mayor Cr Tom Cooper, Cr John Burley, Cr Rob Cullen, Cr James Murray and members of the community at the Clarence Way upgrade funding announcement in Bonalbo last month.

otherwise be unaffordable.

"Our government recognises the costs to upgrade rural and regional roads is often prohibitive for local governments, which is why we are committed to providing this vital funding under RRUP," he said.

Kyogle Council Mayor Kylie Thomas described the announcement as truly great for the region.

"Kyogle Council has worked tirelessly to

highlight the absolutely key role that the Clarence Way plays in connecting our communities and businesses, and thanks the Federal Government for providing this critical funding support," Cr Thomas said.

"The upgrade will benefit locals each and every day – making each trip safer and more comfortable and also kickstarting further community growth and development."

from the Mayor ...

In response to rebuilding after the floods last month, the State Government will be setting up a Reconstruction Corporation by 1 July this year. It will be operational for at least

3-5 years until the region is fully functional again.

The NSW Premier Dominic Perrottet told Mayors via teleconference over the Easter long weekend that we can expect to see our flood projects prioritized, jobs and economic growth promoted in our regions with housing and roads being top on the list.

The Mayors in turn informed the Premier of the different challenges and problems facing each of our councils. Although we have a long way to go as a

region, we hope that with the help of our dedicated State and Federal Ministers we will see the funding required to rebuild our towns, villages and workplaces.

The rebuild will take time. Again, Council appreciates the cooperation of local residents and businesses, especially those in rural areas who are trying to operate their businesses in difficult circumstances and on damaged roads.

The Recovery Centre which had been operating in Kyogle since the floods has helped many people get access to the support and financial assistance they need.

After much time spent with the community, Council has adopted the Kyogle Civic Heart Masterplan.

The Civic Heart Precinct - Stratheden Street, library and forecourt area – is stage one of the overall masterplan which also incorporates the main street.

Tenders will be called by August 2022, with preliminary works to upgrade the

Civic Heart expected to commence before the end of the year.

The project will be completed during 2023.

This type of development in the CBD of Kyogle is to put into action the kind of improvements that the community have expressed over the last few years; well-maintained public spaces that enable people to get together and events like the Saturday Markets, Pumpkin Festival, Writers Festival will benefit from a fit for purpose location.

Meanwhile, in response to community feedback, Council has decided to investigate options for the long-term management of traffic, including parking, in the main street before proceeding with the main street component of the plan.

Once that has been completed, the community will have further opportunities to comment on how the main street redevelopment will proceed.

Until next time,

Cr Kylie Thomas

COMMENT sought on draft CSP

The community has until Thursday, 12 May to comment on Kyogle Council's new Community Strategic Plan (CSP).

The CSP aims to identify the community's vision for the future of the Kyogle Local Government Area (LGA) over the next 10 years, set goals in achieving that vision and identify what Council, and its partners, will do to achieve those goals.

All NSW Council must have their new CSP adopted by 30 June 2022.

Council launched a community survey on 7 March to assist with the development of the CSP and held information sessions throughout the LGA in early May to get further input. Council now is calling on community members to provide further input on the draft CSP 2022-2032, which it adopted for public exhibition at its 11 April 2022

meeting.

The draft CSP builds on progress already made through implementation of 'Ready to Grow', Council's previous Community Strategic Plan.

It has been developed based on community feedback, as well as analysis of local economic, environmental and social trends.

The draft CPS recognises the need to get the 'basics' right – better roads, reliable telecommunications, well-maintained public spaces and great community facilities.

It also reflects the community's growing desire for action in the areas of environmental protection, sustainability and resilience to change and natural disasters.

Written submissions and/or comments on the draft CSP can be made via email to council@kyogle.nsw.gov.au or snail mail to PO Box 11, Kyogle, NSW 2474. A copy of the draft CSP is available on the On Public Exhibition page on Council's website.

KYOGLE
COMMUNITY STRATEGIC PLAN 2022 - 2032

CLARENCE WAY

community update

Council has been undertaking a major upgrade of the Clarence Way for the full length between the local government boundary near Urbenville through to Woodenbong since mid-2021.

The project was made possible by \$3 million of funding from the NSW Government and \$2million of funding from the Australian Government, with Council contributing up to \$2 million of its own funding to allow the full length to be completed.

Kyogle Council Mayor Cr Kylie Thomas said construction works were paused in December 2021 when the project was nearing completion, due to signs of premature pavement failure.

"Council has since engaged independent consultants to undertake sampling and testing of the material supplied for the project, with a report on the final results provided to Council this month," Cr Thomas said.

"The report shows that the material supplied across the segments showing signs of premature failure, does not conform to the required specifications."

Council has prepared a detailed estimate of the cost of the repair works based on the test results obtained, involving stabilisation of the existing pavement materials, and an overlay of compliant pavement material from an alternate source of quarry materials. This repair methodology will avoid the excessive time delays and costs associated with removal and full replacement of the unsuitable material, whilst still achieving the required

pavement strength and longevity.

When Council resolves to accept tenders under the contract for the supply of quarry products, the tenderers are required to hold a suitable level of Public and Product Liability Insurance coverage, as protection against this kind of event.

As such, Council is seeking appropriate compensation for the cost of repairing the road throughout these affected segments.

Kyogle Council Mayor Cr Kylie Thomas said the situation is unfortunate.

"Despite all the hard work and best efforts of the Council staff and contractors involved in the project, the material supplied did not meet the required specifications, and this has led to

premature failures throughout the works," Cr Thomas said.

"Councillors and Council staff are working together to ensure that the project can be completed as originally planned, and as soon as possible," Cr Thomas said

"In the meantime, Council staff will continue to monitor the road and undertake any works needed to ensure continuity of service.

"I also take this opportunity to thank the community for their patience, and apologise for the extended delays in completing the project and any inconvenience caused."

COUNCIL TO

hold mayoral referendum

Kyogle Council will hold a constitutional referendum to determine if ratepayers and residents want to have a popularly elected Mayor.

A majority of Councillors at the April meeting of Council voted in favour of holding the referendum and of conducting an education campaign, before the referendum, on the pros and cons of a popularly elected Mayor.

The referendum will be held at the next local

government elections which are scheduled to be held in September 2024.

For a constitutional referendum to pass, a majority of voters in the council area must have voted in support of the proposal.

Voting in a constitutional referendum is compulsory and the result is binding on the council.

If the constitutional referendum is passed, the result takes effect at the next local government elections (currently scheduled for September 2028).

A popularly elected mayor holds office for the term of the elected Council, usually four years.

Swimming pools

CLOSED

Council's three public swimming pools have closed for the off season.

The Kyogle, Woodenbong and Bonalbo pools closed on April 25 and will re-open for the 2022-2023 swimming season on Saturday 24 September, 2022.

Illegal dumping, littering ON THE RISE

Illegal dumping of waste causes significant environmental, social and financial impacts for Kyogle Council and the community.

When Council receives a report about illegal dumping, staff investigate the incident, clean up dumped waste and take enforcement action when the responsible party can be identified.

However, until recently, Council has not had the opportunity to look at the overall issue of illegal dumping in throughout the Kyogle local government area (LGA).

In 2021 the Environmental Protection Agency (EPA) provided Kyogle Council with a \$20,000 grant to collate data about illegal dumping in the Kyogle LGA.

This project has allowed Council to gain a good understanding of the type of waste dumped, location of incidents, hotspots, estimated costs and waste volumes throughout our LGA.

What have we found out?

Illegal dumping and littering is more prevalent within our community than previously perceived.

Since 2009, the number of reports about illegal dumping has been steadily increasing (see Figure 1). 2021 saw a significant in-

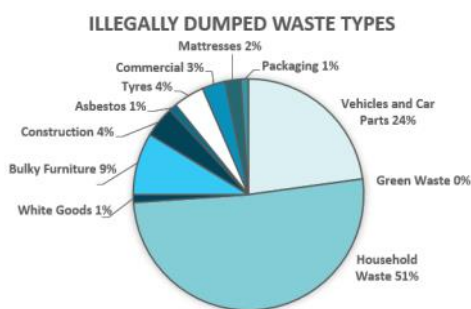

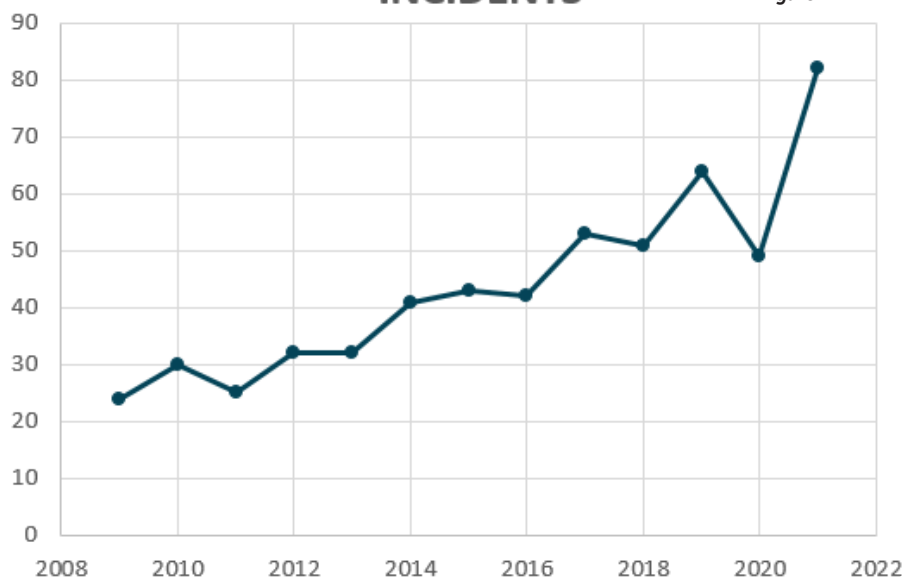

Figure 2

KYOGLE COUNCIL ILLEGAL DUMPING INCIDENTS

Figure 1

crease (40%) in the number of dumping cases reported as a result of the Illegal Dumping Project.

Household waste (51%) and abandoned vehicles (24%) are the two most prevalent types of illegally dumped waste in Kyogle LGA (see Figure 2).

Dumping household waste in public bins in our parks and gardens and dumping waste at rest stops are two of the most common illegal dumping behaviours occurring in our LGA.

Council estimates that illegal dumping is costing ratepayers around \$40,000 per year to investigate and clean-up. However, the real cost is likely to be much higher, as many incidents are still going unreported.

What are we going to do about it?

In response to the findings of the Illegal Dumping Project, Council is developing an

Illegal Dumping and Litter Prevention Strategy.

The aim of the strategy will be to identify what actions are needed to reduce the incidents of illegal dumping generally, but also target specific hotspots identified as part of the Illegal Dumping Project.

Reducing the impacts of illegal dumping and littering is a shared responsibility.

Kyogle Council, local businesses, land managers, community groups and the local community all have a role to play in making sure we protect our LGA from the adverse impacts of littering and illegal dumping.

If you see someone dumping waste somewhere they shouldn't be, or find waste that has been dumped in our LGA, make sure you report it to Council or via RIDonline at <https://ridonline.epa.nsw.gov.au/#/home>

DRAFT BUDGET delivers a wealth of works

Kyogle Council has released a draft \$190 million four-year budget to deliver the services our community needs and expects, Kyogle Mayor Cr Kylie Thomas said.

Council adopted the draft budget at its April meeting is seeking public comment through its annual budget consultation process.

"Having just experienced some of the

worst flooding in our area's history, this is welcome news for our community," Mayor Thomas said.

"The budget sees the continuation of the largest bridge replacement program in the State, with around 90 bridges being replaced across a two-year period, at a cost of more than \$50 million.

"There is \$60 million in the 2022/2023 budget including;

- \$22.3 million for bridge replacements
- \$1.35 million for regional roads

- \$3.5 million for rural local roads
- \$1.7 million for urban streets
- \$3.1 million for building and community facilities including
- \$104,000 for financial assistance donations

Copies of the draft budget are available for from Council at 1 Stratheden Street, Kyogle, on Council's website www.kyogle.nsw.gov.au and at local stores and post offices. Submissions should be made in writing by 4pm on 10 May 2022.

KYOGLE CIVIC

Heart plan adopted

At its April Ordinary Meeting of Council, Council considered the Kyogle Civic Precinct Masterplan Project. This project has two main components – redevelopment of the Kyogle Main Street (Summerland Way) and redevelopment of the Civic Heart Precinct (Stratheden Street/Library Forecourt area).

The original Draft Masterplan was revised following significant public comment and feedback received during the first round of public consultation in June 2021.

The revised Draft Masterplan underwent a subsequent round of public consultation between December 2021 – February 2022. Community interest in the project remains very strong and Council received a large number of submission in response to the

revised Draft Masterplan.

There was clear community support for redevelopment of the Civic Heart Precinct subject to clarification and refinement of some design elements such as amount of grassed space, supporting infrastructure and installations and the proposed planting regime and species.

The landscape design for the Civic Heart Precinct was amended to reflect this feedback and Council resolved at its April meeting to adopt the Kyogle Civic Heart Landscape Design.

Community feedback on the revised redevelopment of the Kyogle Main Street showed considerable support for the “greening” of the main street in principle, however there are still substantial reservations about key elements of the plan - in

particular, the potential loss of car parking spaces and other traffic management issues.

As a result, Council has decided to investigate options for the long-term management of traffic in the Kyogle Main Street, including provision of car parking spaces required to support the sustainable growth of the Kyogle business district, before further consideration of a plan for redevelopment of the Main Street.

When this work is completed, it is intended that a further revision of the Summerland Way component of the Masterplan will be prepared, accompanied by an overarching proposal for the provision of car parking in and around the CBD.

The revised package will be subject to a final round of public consultation.

SOME DA

fees waived

Council will permanently waive the development application, assessment and inspection fees and charges for a range of community infrastructure projects.

The waiver will apply to projects funded by the State or Federal Governments and which are on land managed by a Community Trust, Crown Land Manager or sporting club.

In recent years, several local community groups and land managers have been successful in securing State and Federal Government funding for projects to maintain and develop community infrastructure and stimulate local economies in the wake of bushfire, drought, flood and the COVID-19 pandemic.

The projects include maintaining or upgrading existing community facilities, installing new structures and amenities at community sporting grounds and showgrounds and making improvements to community halls.

These projects can require development consent from Council, and often the development process costs, which can add up depending on the complexity and scale of the project, were not included in the community group's budget.

Council agreed at its April meeting to assist community groups to deliver these vital projects by waiving Council development fees and charges.

While community groups will still need to meet costs such as consultant fees for preparing information required to support a development application and statutory State Government fees and charges, it is hoped the waiver of Council fees will ensure that funding is spent on what matters most – infrastructure for our community.

Community groups are encouraged to contact Council's Planning Services team for advice on whether development consent is required for a project and how to submit a development application if required.

25 BRIDGES

replaced since June

Council has replaced 25 bridges since June 2021 as part of its once in a generation bridge building program.

Council aims to replace 93 aging timber bridges over a two-year period from June 2021 to June 2022 as part of the program which is being funded through the State Government's Fixing Country Bridges Program (FCB) (\$40.419M) and the Federal Government's Bridge Renewal Program (\$1.535M). Council is also contributing \$8.86M to the project.

At any one time, Council has between five and six active bridge construction sites on the go, with Council currently using a mix of internal resources and local contractors to complete the works.

The wet weather and catastrophic flooding in recent months significantly slowed the bridge building program with many of Council's crews being redeployed to emergency restoration works.

However, the bridge building program is ramping back up to

full production, with Council expecting work to recommence on six sites at the start of May.

Council has used its standard steel girder and precast concrete deck bridge design to replace the majority of the bridges to date. Most of the components for this type of bridge are manufactured off site which allows Council to keep the time on site to a minimum (steel girders manufactured off site, precast concrete deck units from a local manufacturer, reinforcement cages prefabricated at Council's Woodenbong depot).

Current open work sites are:

- Ryans Creek Road
- Mahoneys Lane
- Gorge Creek Road
- Saunders Road
- Walsh Road
- Cedar Point Bridge Edenville Road – construction by a local contractor.

EXHIBITION

is transformative

Nature has been transforming for writers and artist in the Kyogle district since 2020.

First, there was the idea, then there was drought, then came fire, then came pandemic, then flood, climate change and then another flood.

All the while, writers and artists were pivoting on an opportunity to exhibit their creativity in an exhibition focusing on *Nature Transforming*.

Throughout the years, Council's Roxy Gallery has supported collaborative exhibitions between members of the Kyogle and District Arts Group and the Kyogle Writers Group with an interest in connecting the literal with the visual and vice versa.

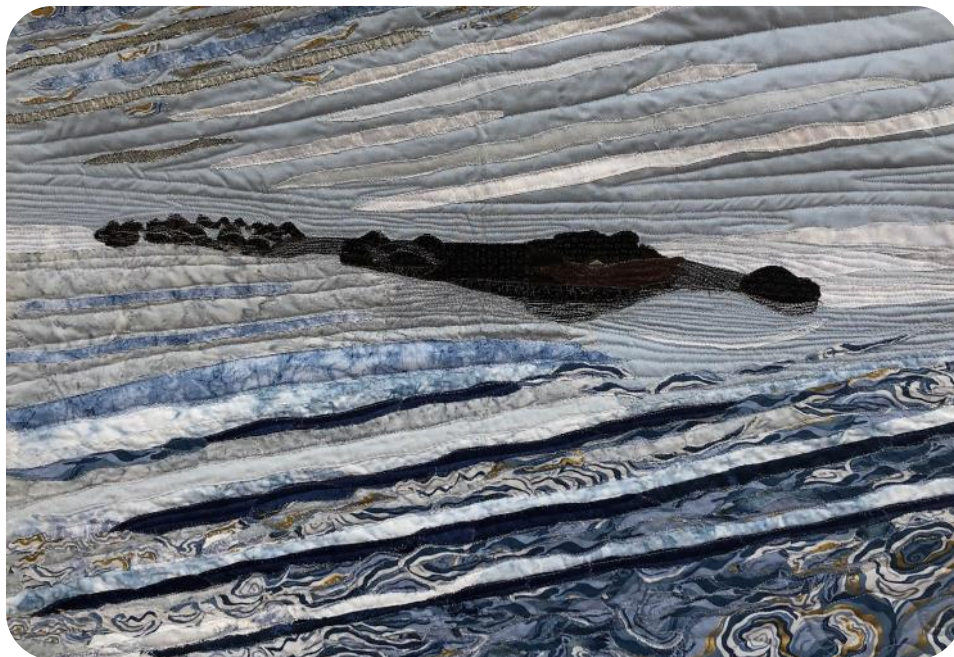

The elements of interpreting words in to visuals and visuals into words intrigues and expands how viewers perceive what is created.

Nature Transforming finally will be on exhibit at the Roxy Gallery throughout May.

The official opening will be on Friday May 6 and it will run until June 5.

Coincidentally, the exhibition will run alongside the Kyogle Writers Festival.

As part of this exhibition and due to the

Pat Oxtoby's work titled *Time Warp* will feature in the *Nature Transforming* exhibition at Council's Roxy Gallery.

many factors that delayed the show getting on the road, this idea also transformed into a book.

Through funding support from Arts Northern Rivers and Create NSW, the Kyogle Writers Group was able to engage professional local photographers, designers

and printers to turn this exhibition into a collection of writings and artworks that touch on the topic of our changing world.

The book 'Nature Transforming' will be on sale at the Roxy Gallery and all proceeds will go towards future creative arts projects in literature and art.

LIBRARY happenings

Why not come along and join the fun at one of Kyogle library's fab free programs – there is something for people of all ages at your library during May.

Children's Service Programs

Read, rhyme and romp: This program is held every Friday from 10.30-11am during school terms. This is for birth to three-year-olds; and older siblings are welcome.

Saturday Parents and Kids Club: Is held on alternate Saturdays from 10.30-11.30am during school terms. This program is for 5-12 years. Dates to be advised each month. Please note

parental participation encouraged and supervision required as this program provides **unstructured** sessions with simple craft and LEGO trays. **Playdough Playtime:** Is now held on the third Thursday of every month during school terms from 10.30-11am. This program is for pre-schoolers ages - older siblings welcome.

LEGO Club: This ever popular program is held from 3.30-4pm on the third Thursday of every month during school terms. It is for school-aged children.

Adult Programs

Kyogle library Book Discussion Group: Held on the third Tuesday of each month from 10.30-11.30am. A free cuppa provided to all participants.

Adult Colouring-in Group: Held every second Friday and fourth

Wednesday of each month starting at 10.30am. A free cuppa provided to all participants.

Tech Savvy: Free tech assistance available for adults, 15-30 minutes sessions by appointment only. Please phone 6632 1134 to book a session.

Bookings essential for all programs.

For further information and bookings, call Kyogle library staff on 6632 1134

Kyogle library is your one-stop-Tech hub for:

- fast free wi-fi during library opening hours
- free computer access by appointment
- free library membership with current local ID
- free laptop access for library members in-library

- cheap black and white and colour A4 and A3 printing
- cheap scan to email and free scan to USB services
- JP services by appointment

Kyogle Writers Festival

The Kyogle Writers Festival runs from 12-15 May, with the Kyogle library hosting a number of events throughout the festival. Check out the program of amazing events, information and booking details at www.kyoglewritersfestival.com.

FULL PROGRAM

of events at Writers Festival

The 2022 Kyogle Writers Festival kicks off on Thursday 12 May and runs through until Sunday 15 May.

The festival begins with a family movie night screening 1980s cult-classic, *The Princess Bride*, at Kyogle Cinemas.

The next three days feature more than 70 separate events and just as many authors, writers, podcasters, poets and filmmakers. There is definitely something for everyone in this year's program!

With the broad theme of 'Close to Home?', the overall format remains similar to last year with conversations with authors, panel discussions, poetry readings and workshops.

The festival is once again sponsoring a writer-in-residence program, this time supporting an emerging First Nations' writer.

"One of our aims in programming the festival is to bring to Kyogle a diversity of authors and poets, at different stages of their careers, from emerging through to established, and from across the country, while also ensuring there is strong representation by local and regional writers", the festival's creative director, Paul Shields, said.

First Nations' chef, Mark Olive, well known for his SBS TV series, *The Outback Café*, will be in conversation with Southern Cross University's Adele Wessell on the evening of Friday, 13 May, just before the official festival welcome soiree under the big

One of the many events held as part of last year's Kyogle Writers Festival.

marquee on Stratheden Street.

Cultural researcher and foundation editor of *The Griffith Review*, Prof Julianna Schultz will be in conversation with Melissa Lukashenko, discussing Julianne's latest book, *The Idea of Australia* on Saturday, 14 May.

Topics to be explored by panels of authors include nature, cooking, LGBT identities, and First Nations writing.

And, if you want to hone your own skills, there will be workshops on writing memoir, historical fiction, the sensual world and podcasting.

There's even a panel called I Love Poetry

and Rugby League!

Full program and online ticket sales are available www.kyoglewritersfestival.com

Festival organisers are very grateful for the generous financial support provided by our sponsors and supporters: NSW State Government through CreateNSW, the Australian Government through the Regional Arts Fund and Destination Australia, The Foundation for Rural Regional Renewal, Kyogle Council, Southern Cross University, University of Queensland Press, ACON, Raised Ink Press, The Business Hive and the Standfield and Hanley Families.

Community Calendar

Farmers' Market

The Kyogle Farmers' Market is held on Saturday mornings in Stratheden Street, Kyogle (between the Summerland Way and the library).

To book a stall phone Robert on 0407 506 548 or Anne on 6632 1851.

Kyogle Bazaar

The Kyogle Bazaar is held on the fourth Saturday of the month at the Kyogle Amphi-

theatre, behind the Information Centre.

The Bazaar is a volunteer-run community market day, which features a variety of stalls.

The market runs from 9am-2pm in the autumn, winter and spring months and from 8am-1pm during the summer.

The May Bazaar will be held on Saturday, 28 May.

Green Thumbs Day

Bonalbo Garden Club Inc will host its bi annual Green Thumbs Day on Tuesday, 25 October 2022.

This is a ticketed event and

must be booked and paid for prior to the day.

For your ticket you will receive morning tea, a two course lunch and a guest speaker (TBA).

It will be held at the Soldiers Memorial Hall at Old Bonalbo commencing at 10am. Tickets sales will be released closer to the date. For further information, please phone 0438 478 983.

Road safety

A road safety workshop to help people aged 65 or over make safer choices when driving, walking, using a mobility

scooter or catching public transport will be held in Kyogle on Thursday 26 May.

The workshop is being coordinated by Transport for NSW and will be held at the Kyogle Community Centre (formerly known as Kyogle Seniors Centre) from 10am-12pm.

Each attendee at the workshop will have the chance to take up a subsidised driving lesson.

Registration is essential. To book your place at the workshop, phone Ivor Thompson on 0481 040 918 or email manag-er@truebluedriving.com.au.

COUNCIL OPENS two new bridges, despite rain

Amidst the disturbance and changing road network conditions of the past month, Council was very happy to open new bridges on Wyndham Road and Wynlea Road and to start construction of new bridges at Walsh Road, Mahoneys Lane, and Gorge Creek Road.

At the end of April, preparations were also underway for commencement of the Old Tweed Road bridge replacement and piling works for the bridge replacement on Saunders Road.

At the time of writing, crews are working to restore through access of Lillian Rock Road with the road expected to be open to one lane by the end of April.

Kyogle Road at the Cawongla Range landslip will be open to two lanes of traffic in the week after the ANZAC Day long-weekend.

Investigation and design work carried out in March and April is being utilised to de-

Kyogle Road at the Cawongla Range landslip has re-opened to two lanes of traffic.

velop and refine the program of works for restoration at all major landslips in the local government area. The program will accompany Council's application for assistance under the State and Commonwealth funded Natural Disaster Relief and Recovery Arrangements.

Restoration work commenced at Theresa Creek Road in April and will continue into

May.

This work involves rehabilitation segments of the bitumen road including the steep hill near Dugans Road.

Work will shortly recommence at the Sandilands rehabilitation project which involves road rehabilitation, widening, and minor realignment of a stretch of Clarence Way.

Council contact and info

Council MEETINGS

The next Ordinary Council meeting will be held on Monday 9 May 2022 at 5pm. Ordinary meetings are held on the second Monday of every month except January. Meetings start at 5pm and are held at the Kyogle Council Chambers, 1 Stratheden Street, Kyogle. The first item of general business is Public Forum, which provides an opportunity for the public to speak to Council on items of business to be considered at the meeting. To request to speak at the Public Forum, you should email council@kyogle.nsw.gov.au or phone 6632 1611 by midday on the Friday preceding the meeting.

REGIONAL ROADS INFORMATION

www.myroadinfo.com.au

RECYCLING FACILITIES

All Council waste facilities have recycling capabilities (if separated) and can recover oil, paper, cardboard, steel, aluminium, glass, and plastic at no charge.

The waste facility hours of operation are:

Kyogle: 7.30am-12pm Monday to Friday

9am-4pm Saturday & Sunday

Woodenbong: Tuesday & Saturday 9am-4pm

Bonalbo: Wednesday & Saturday 9am-4pm

Mallanganee: Thursday & Sunday 9am-4pm

** All Council waste facilities are closed on public holidays*
