Please place your bins out according to the calendar – the green organics bin weekly and the landfill and recycling bins on alternate fortnights.

Waste Collection Service Rules and Landfill Info

Separate services for problem wastes, e-waste, fluorescent tubes, batteries, steel, gas bottles and tyre recycling are available at the Kyogle Landfill Facility or transfer stations. Please check with our helpful staff to avoid disappointment.

Rules for Your Waste Collection Service

- Only those bins designated for collection on the calendar will be emptied.
- Only place accepted items in each bin as designated – food and garden waste in the green organics bin, recyclables in the recycling bin and general waste in the landfill bin.
- Do not place hazardous waste, dangerous goods or dirt in your bins.
- Ensure all bin lids are COMPLETELY CLOSED to avoid waste spilling out when emptied.
- All bins have a 60kg weight limit. Bins will not be emptied if weight exceeds 60kg to avoid causing damage and unnecessary wear and tear to truck hydraulics.
- Provide clear access to your bins, away from obstructions such as cars, trees and overhanging branches.
- Bins must be placed in position at least 50cm apart the EVENING BEFORE collection day. Collection at the same time each collection day cannot be guaranteed.
- Items placed on top of the bin or next to the bin will NOT be collected.
- Ensure front of each bin is facing towards the road.
- Waste collection trucks are fitted with cameras and can record prohibited waste.

Landfill and Transfer Station Information

Non hazardous domestic and commercial waste only.

Kyogle Landfill Facility & Community Recycling Centre

Runnymede Road, Kyogle
